CLIENT TESTIMONIAL

“First Choice Bank could not be more pleased with the assistance we received from ICI Consulting during our core software review. Our ICI consultant helped us navigate multiple issues since we were also anticipating a change in our LOS and our EFT providers.

Our consultant kept the project moving and we grew to rely on her honest feedback, and gentle pushing, when we might have let bank responsibilities cause the project to stall. Even after the decision was made and the conversion process began, we have had support for contract amendment reviews which has been truly helpful.”

- Julie L. Henry
Sr. Executive VP, COO & CFO
