CLIENT TESTIMONIAL

HomeTrust Bank

Ready for what's next.

“Our ICI consultant has an amazing depth of knowledge about core banking platforms and related solutions. He was able to guide our bank through the evaluation of many complex scenarios, giving us valuable insight about other banks’ experiences, system functionality, and potential pricing.

ICI uses a comprehensive savings model which makes it easy to quantify and compare the impact of various options. Our consultant was a pleasure to work with, always responsive to our questions and requests, making us feel like our project was his highest priority. Most importantly, he helped us exceed the financial goals for the project within the original deadline. I would encourage any financial institution to hire ICI Consulting!”
