# CLIENT TESTIMONIAL

**POWELL VALLEY  
NATIONAL BANK**

“For Community Bankers, especially CEOs who are tugged in a thousand directions, the thought of undertaking a thorough IT contract evaluation or renewal is extremely daunting. In my estimation, to not consider this task carefully is to shirk the most critical assessment needed for your Bank’s continued success.

Considering the importance of this decision, we selected and worked with ICI Consulting to determine our Tech (and bank) future. And I would hire them again! There are many challenges community banks face, most of which we have little to no control over. We now have control over our technology future... thanks to ICI.”

- Leton Harding  
President / CEO
